SUMMARY AS OF OCTOBER 2026

General

I am Associate Tenured Professor at IE University, which I joined in September 2008. My research focuses on Empirical Microeconomics in the areas of gender and health economics, labor markets, and policy evaluation. Before joining IE University, I was an Economics Professor at Saint Louis University, Madrid, and an economic consultant at Nera Economic Consulting in the Chicago, Boston and Madrid offices.

Teaching

My current teaching focuses on applied microeconomics and managerial economics, with a particular emphasis on using economic frameworks to understand public policy and firm behavior. Over the years, I have also taught a wide range of courses at both the undergraduate and graduate levels, including microeconomics, international economics, labor economics, and the global economic environment. I have taught diverse student audiences—including undergraduates, master's students (including MBA and specialized master programs), and senior executives. My teaching experience spans multiple countries and settings, from large lecture halls to smaller, interactive seminar formats. I have used a variety of teaching methods, including case-based discussions, tutorials, synchronous and asynchronous online learning, and distance education.

At IE University, I regularly teach in the International MBA, and I also deliver content in executive education programs for both open-enrollment and in-company courses. Some of my executive teaching has been developed in collaboration with major institutions in Spain and abroad. Additionally, between 2012 and 2026 I contributed to academic program design and quality assurance through my roles as Vice-Dean for Economics and Chair of the Economics Department.

More recently, I have been involved as an instructor in initiatives aimed at integrating Artificial Intelligence into economics education. As part of IE University's formative efforts in this area, I have explored how AI tools can enhance classroom dynamics, foster critical thinking, and increase student engagement. This work reflects my broader interest in pedagogical innovation and in equipping students with the analytical and digital skills needed in today's evolving academic and professional landscapes. I place great

importance on engaging students through participative and applied teaching approaches. This is reflected in consistently high student evaluations and regular recognition through outstanding teaching awards across various programs, including the MBA, and executive education.

Service

As Chair of the Economics Department at IE University (September 2012 – October 2026) and Vice-Dean for Economics at the IE School of Politics, Economics & Global Affairs (SPEGA) (July 2022 – October 2026), positions from which I stepped down on October 1, 2026, I played a leading role in the academic and strategic development of our Economics programs. My service spanned faculty recruitment and mentoring, program design and adaptation, academic policy setting, and institutional representation. I led all hiring processes for both tenure-track and adjunct faculty in the department, supported internal promotions, and overseen the continuous evaluation of teaching performance through the Teaching Committee, which I co-chaired.

As Vice-Dean, I actively contributed to the benchmarking, design, and promotion of the Bachelor in Economics (BIE) and the Master in Applied Economics (MAE). This includes preparing study plan updates, conducting ongoing analysis of the academic landscape, and providing intellectual leadership in discussions with strategic partners such as the OECD and IMF. I represented SPEGA in academic forums and ceremonies and participated in program-level academic committees.

I co-organize the weekly seminar series of the Economics Department (see, here). In this role, I actively contribute to inviting high-quality scholars across fields to foster intellectual exchange and strengthen the academic community within IE. These seminars are a key pillar of our research culture and help maintain an active dialogue with leading researchers from around the world.

Earlier in my career, at Saint Louis University's Madrid Campus, I was a member of the Academic Quality Evaluation Committee, where I evaluated academic programs and faculty performance.

Beyond administrative leadership, I remain committed to fostering a dynamic and innovative academic culture. This includes supporting junior faculty, guiding curricular innovation—most recently around the integration of AI into economics education—and contributing to the international visibility and reputation of our Economics programs.

Research

My research lies at the intersection of empirical microeconomics and public policy, with a particular focus on family economics, labor markets, gender economics, and health economics. I study how institutions, laws, and economic incentives shape individual behavior and outcomes within households and the labor market. Across these areas, I aim to contribute to a better understanding of the mechanisms driving gender gaps, fertility choices, inequality, and the effects of public interventions.

A central theme in my work is the role of policy design in shaping family behavior and labor supply, often in contexts of legal or institutional change. My recent research has analyzed the impact of family law reforms—such as joint custody and alimony legislation—on intimate partner violence, fertility, labor market outcomes, and child well-being. I have also investigated how the expansion of high-speed internet has influenced gender gaps in adolescent mental health, using large-scale administrative data. In current work I am also interested in how policies and social contexts shape gender norms and their effect on marriage, fertility, and well-being.

I pursue a multidisciplinary, data-driven approach and collaborate extensively with scholars in labor, health, and gender economics. My publication strategy targets high-quality peer-reviewed journals in economics and public policy. My work has appeared in leading outlets such as the Journal of Human Resources, Journal of Health Economics, Journal of Public Economics, Journal of Policy Analysis and Management, American Journal of Health Economics, Journal of Economic Behavior & Organization, Review of Economics of the Household, and Industrial and Labor Relations Review, among others.

I am a regular referee for top journals, including the American Economic Journal: Economic Policy, Journal of Human Resources, Journal of Public Economics, and the Journal of the European Economic Association, and I actively contribute to academic events through invited seminars and international conferences such as ASSA, SEHO, ESPE, EALE, and the OECD-WomEmpower Workshop.

My research has received attention beyond academia. Findings have been cited by major media outlets and public policy platforms, including The New York Times, El País, La Vanguardia, and CEPR-VoxEU, and have informed debates on family policy and labor market reforms in Spain and internationally.

I have received competitive funding from institutions such as the Spanish Ministry of Science and Innovation and Fundación de las Cajas de Ahorros (FUNCAS), supporting both independent and collaborative projects. In my ongoing projects I continue to explore how early-life environments, institutional design, and policy changes interact to affect long-term outcomes in gender gaps, family formation, economic behavior, and well-being.

EDUCATION

Ph.D., Economics, University of Chicago	2000
M.A., Economics, University of Chicago	1996
B.A., Economics, University of Barcelona	1994

ACADEMIC APPOINTMENTS

Vice-Dean for Economics July 2022 – October 2026
IE School of Politics, Economics & Global Affairs, Madrid
Chair of the Economics Department September 2012 – October 2026

IE University, Madrid
Associate Professor (with tenure) 2013 – Present
IE University, Madrid
Associate Professor 2003 – 2008
Department of Economics, Saint Louis University-Madrid Campus
Member 2003 – 2008
Academic Quality Evaluation Committee
Department of Economics, Saint Louis University-Madrid Campus

RESEARCH AFFILIATIONS

Research Fellow, IZA&LISER Network 2023 – Present
Member, International Health Economics Association 2025 – Present

PROFESSIONAL EXPERIENCE

Consultant 2000 - 2003
Competition Policy and Regulation Practice
N/E/R/A, Chicago, Boston, and Madrid offices

Consultant 1999 - 2000
Competition Policy and Damages Practice
Chicago Partners Consulting, Chicago, IL., United States

TEACHING

Teaching Awards 2019 - 2024

2025 – Best Professor Master Programs (International MBA)

2008-2025 – Excellence in Teaching Award – received in multiple occasions, for excellent teaching evaluations (>4.5/5).

Courses Taught

Associate Professor
Advanced Management Program
IE University

Associate Professor 2012 - Present
Executive Education
IE University, FT Springhead

Associate Professor 2009 - Present
International MBA. Managerial Economics
IE University

Associate Professor 2009 - Present
Master of International Management. Economic Environment
IE University

Associate Professor 2003 - 2008
Microeconomics, Macroeconomics, International Economics – Undergraduate Level
Saint Louis University

Lecturer 1998 - 2000
Microeconomics. Undergraduate level
The University of Chicago

SERVICE TO THE PROFESSION

Administrative and Leadership Academic Activities

Vice-Dean for Economics, IE School of Politics, Economics & Global Affairs (SPEGA) (2022-2026)

- Master and Bachelor Program Design and Adaptation: benchmark, design, and promote (internally and externally) the MAE and BIE programs. *Memoria* and study plan updates (with support from the executive team), and a continuous study of the academic market in the relevant academic space.
- Academic Partnerships: support efforts by the Dean on the partnerships front. Intellectual and academic support in conversations with the OECD, IMF and others, as well as participation in program-level Academic Committees. Represent SPEGA at academic events and ceremonies, and serve as an interlocutor with academic partners.
- Master Program Management: Academic Coordinator for the MAE.
- Faculty Teaching Assignments: co-chair the Teaching Committee that oversees annual faculty assignments.
- Academic Policy Design: support the Teaching Committee in setting school-wide academic policies, and ensuring they are embodied on course syllabi.
- Faculty Evaluation: support the Teaching Committee's process of continuous evaluation of faculty performance, generate annual reports on faculty performance.
- Faculty Hiring: lead the processes of evaluating and hiring all Economics tenure-track and adjunct faculty at SPEGA.
- Internal Faculty Promotions: support research evaluations and the tenure process in the Economics Area.

- Research Committee: serve as a School representative on the institution wide Research Committee, which decides on standards and processes for research promotion and evaluation across the entire university.

Chair of the Economics Department, IE University (2012-2026)

- Lead Economics Department administration.
- Faculty Hiring: lead the processes of evaluating and hiring all Economics tenure-track and adjunct faculty at the Economics Department.
- Internal Faculty Promotions: support research evaluations and the tenure process in the Economics Area.
- Coordination of Guest Speaker Research Seminar series.

Member, Academic Quality Evaluation Committee, Saint Louis University-Madrid Campus (2003-2008)

- Evaluated academic programs and faculty performance.

Professional Associations

Nominated candidate for the Council of the European Society for Population Economics (ESPE), 2027 Council Elections (October 2026).

Member, European Society for Population Economics (ESPE); International Health Economics Association (iHEA).

Service as Referee

American Economic Journal: Economic Policy, Journal of Human Resources, Economic Journal, Journal of the European Economic Association, Journal of Labor Economics, Journal of Public Economics, Journal of Population Economics, Review of the Economics of the Household, SERIEs - Journal of the Spanish Economic Association, Labour Economics, Industrial and Labor Relations Review, Journal of Economic Behavior and Organization, Review for the Economics of Education, Economica, Oxford Bulletin of Economics and Statistics, Economic Inquiry, Applied Economics, Social Sciences.
